GRAPHIC DESIGN

Our first stop is to visit our Graphic Design Studio.

Today your business is viewable on every screen if you want it to be. Whether it's from your desktop PC, or you're out at lunch with a friend and you scanned the QR MENU of the restaurant you're in. Perhaps it's that digital sign that catches your eye as you do a little window shopping down a busy street — somewhere there's an audience eagerly waiting to learn more about what your business has to offer.

COHESIVE BRANDING

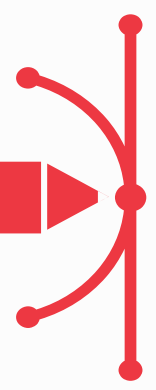

We work with you to develop a unique branding identity that will drive your brand ahead of your competition.

If you want to create a successful brand, you need to create a cohesive branding strategy. This means that all of your marketing materials and messaging should be aligned and support each other. When your branding is cohesive, it will create a strong and unified message that customers will recognize and trust. Colours, fonts, styles must all be matching. **Bright Idea Graphics** is your branding ambassador.

LOGO DESIGN

The main factor driving how people perceive your brand is your logo.

Logo designs can be straightforward or intricate. There are a few important things to think about when designing a logo such as;

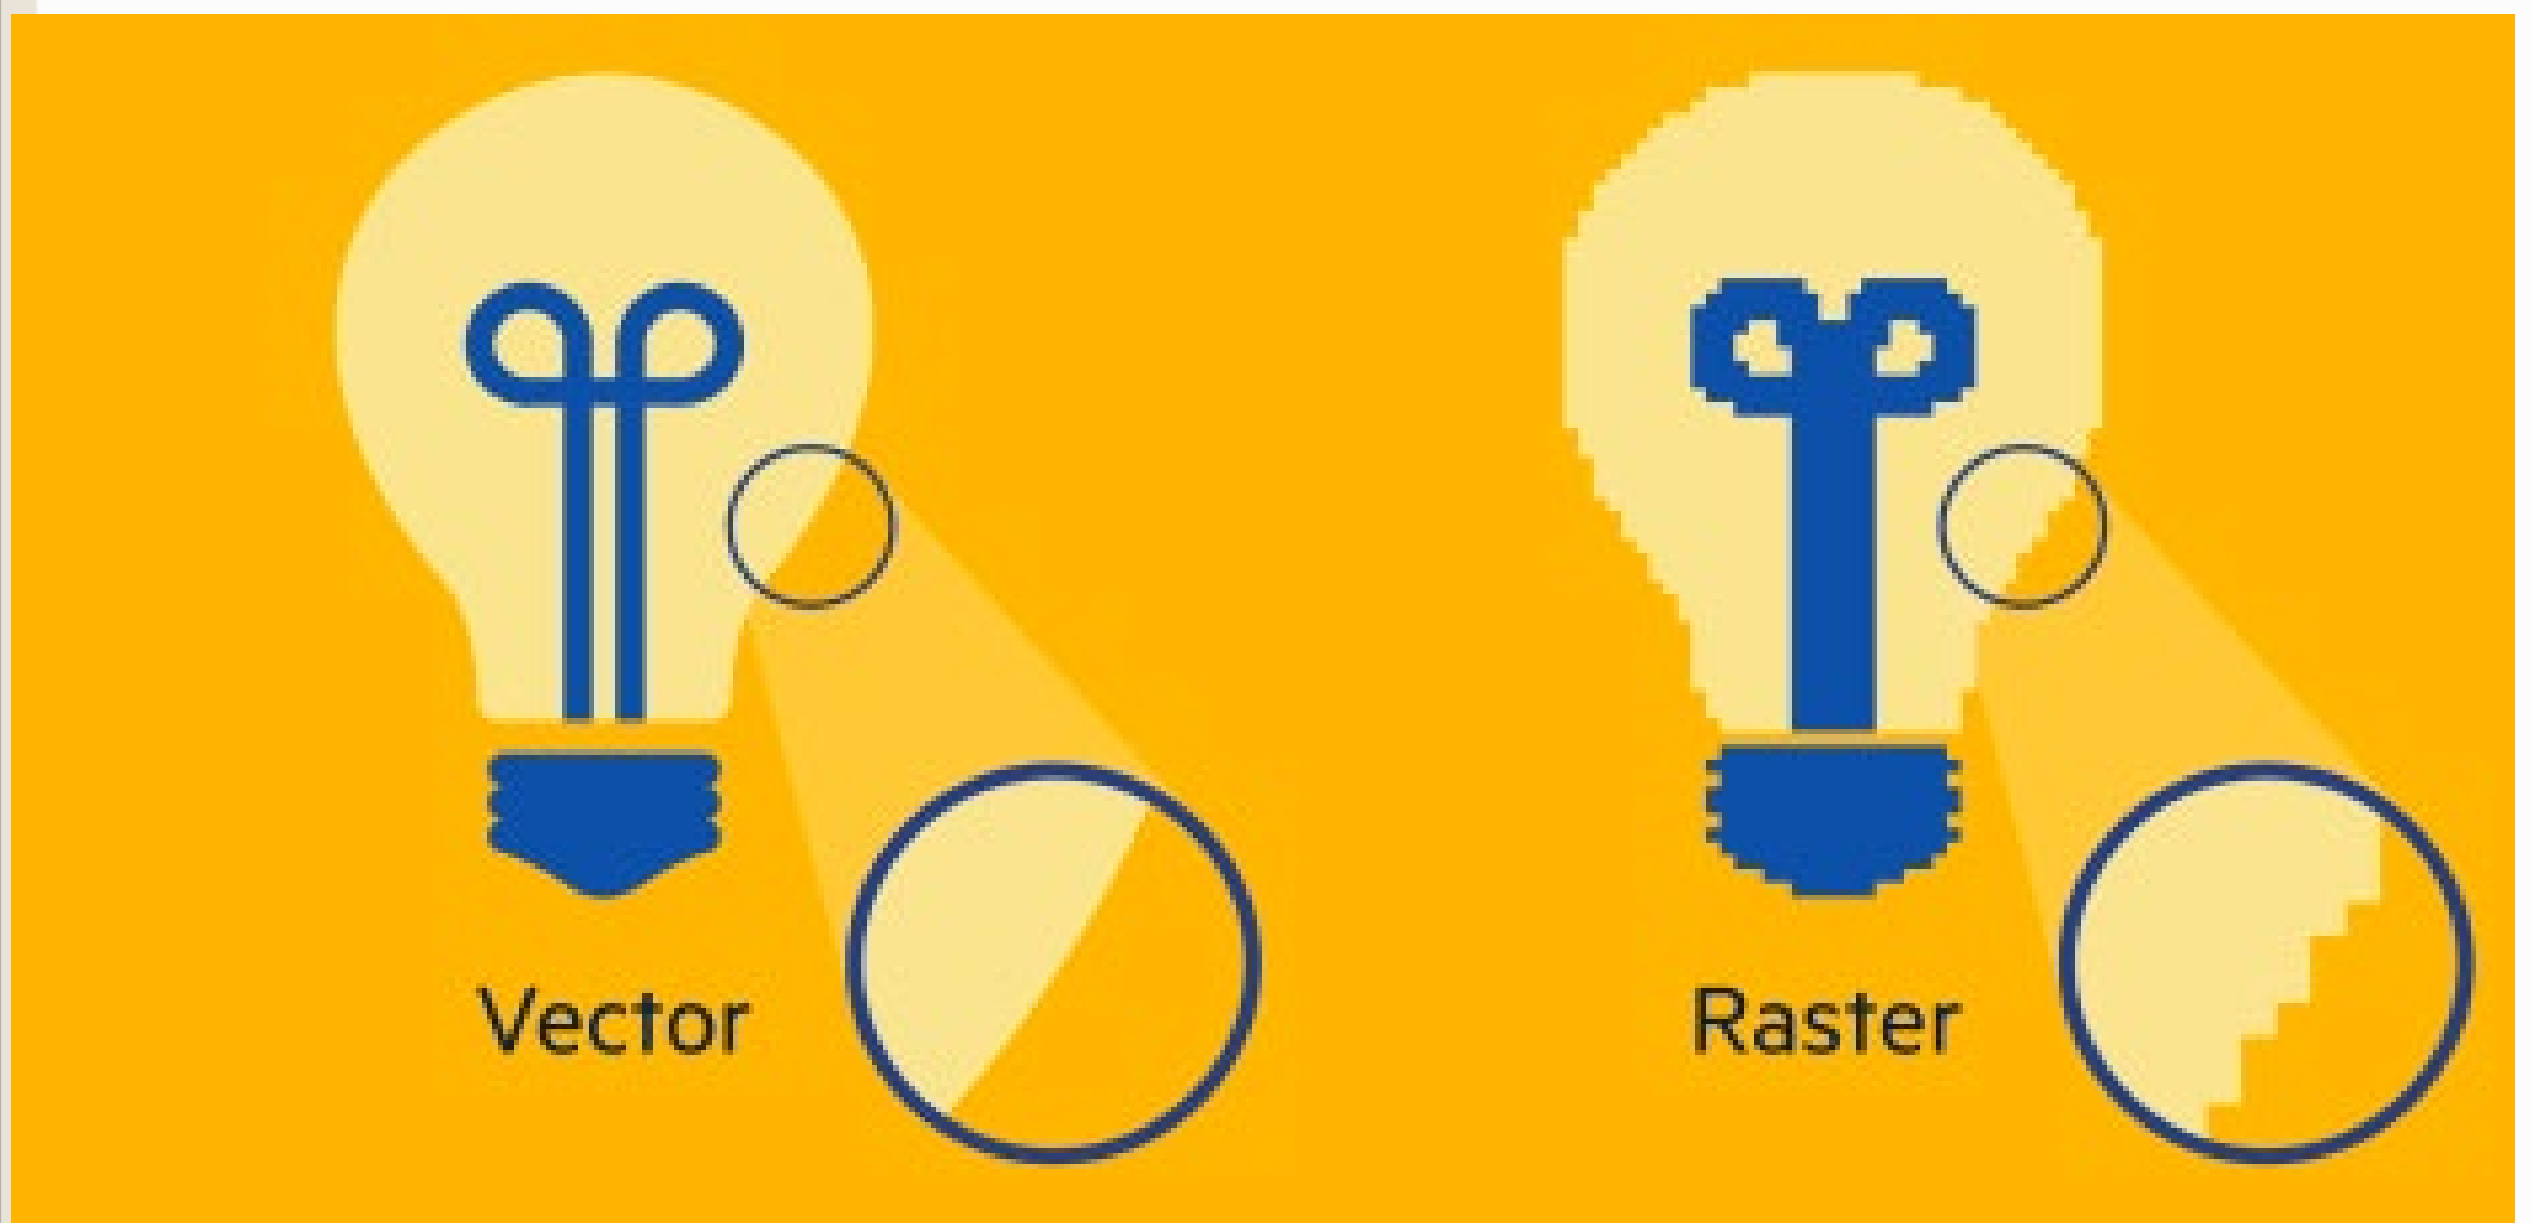

Keep it simple. A complex logo will be difficult to remember and may not be as effective.

Make it unique. A good logo should be instantly recognizable and unique from other logos out there.

Work as a single colour. A great logo work perfectly as a black and white graphic.

Avoid Spot Colours. Logo's with spot colours often add a lot of cost to making the most affordable items.

Vector Graphic. All logo designs are be vector design which will allow the design to be resized wit out loosing any detail.

Formatted for both web and print.

Your website and your business card are the primary places where people will see your logo.

Have multiple layouts. A professional logo design must fit elements, social media profiles, or banner graphics.

File Formats. Such as pdf, eps, ai. Many people may need your logo for other purposes.
